Art Unit: 2826

DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-14 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest applicant's invention claimed as a method, the invention characterized by the claim limitations, highlighted by steps of 1) providing a device comprising a microdroplet transport channel having at least one hydrophobic region and a gas port in fluidic communication with the channel, 2) introducing a first volume of liquid into the channel such that the first volume is confined by at least one of the hydrophobic regions so as to create a first terminus, and 3) introducing a volume of gas through the gas port into the channel under conditions that the gas divides the liquid in the channel so as to create a second terminus, the first a second terminus defining a second volume of liquid.

Applicant's claimed methodology is useful for movement and dispensing of accurate microdroplet volumes, such a nanoliter or picoleter sized droplets containing biological samples to, for example, initiate biological reactions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2826

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to

applicant's disclosure.

The references cited relate to microfluidic handling of microdroplets, yet none

disclose applicant's inventions as characterized by generic claim 1.

4. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Evan Pert whose telephone number is 571-272-1969.

The examiner can normally be reached on M-F (7:30AM-3:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Nathan Flynn can be reached on 571-272-1915. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
